

LESSON TITLE: Genetically Modified Art, SCULPTURE RUBRIC

General Descriptors:

1. Craftsmanship/Balance/Unity –The artwork is well-crafted, balanced and unified for completion.
2. Shape/Scale/Proportion – Figure reflects accurate shape, scale and proportion.
3. Color, Value, Texture – color, value & texture enhances the 3D effect, accurately identifies the fruit or vegetable.
4. Concept/Communication - Clear communication of selected fruit or vegetable, and fact-based research information.
5. Expression/Movement – Character demonstrates expression and movement appropriate to the fruit or vegetable and research info.
6. Media/Materials – All materials used follow criteria and are appropriate to communication of the topic.

	A	B	C	D	F
Craftsmanship/Balance/Unity	Item is <u>exquisitely crafted</u> : Materials are super-smoothly applied, no ragged edges or inappropriately rough surfaces. All media is applied for an outstanding appearance and completely unified into a single character. Transformation of materials is complete.	Item is <u>well crafted</u> : Materials are smoothly applied, no ragged edges or inappropriately rough surfaces. All media is applied for a smooth appearance and is unified into a single character. Transformation of materials is good.	Item is not well- <u>crafted</u> : Materials show some ragged edges or rough surfaces. Media has a minimally smooth appearance and is not entirely unified into a single character. Transformation of materials is somewhat achieved.	Item is poorly <u>crafted</u> : Materials shows ragged edges or rough surfaces. Media has no smooth appearance and is not unified into a single character. Transformation of materials is minimal or has not occurred.	Project is <u>incomplete or is not crafted</u> at all, or turned in for a grade.
Shape/Scale/Proportion	<u>Shape, scale & proportion</u> completely agrees with ideal for fruit or vegetable; displays exquisite proportions and highly detailed shape.	<u>Shape, scale & proportion</u> agrees with ideal for fruit or vegetable; displays accurate proportions and shape.	<u>Shape, scale & proportion</u> mostly agrees with ideal for fruit or vegetable; displays adequate proportions and shape.	<u>Shape, scale & proportion</u> does not agree with ideal for fruit or vegetable; displays incorrect proportions and shape.	Project is <u>incomplete</u> , or not turned in for a grade.
Color/Value/Texture	All <u>colors</u> used are perfectly accurate, with related <u>values</u> including highlighting and shading, <u>texture</u> is perfectly accurate for specific fruit or vegetable.	All <u>colors</u> used are accurate with related <u>values</u> including highlighting and shading, <u>texture</u> is accurate for fruit or vegetable.	<u>Colors</u> used are not entirely accurate for the species, related <u>values</u> somewhat inaccurate, highlighting, shading and/or texture is somewhat inaccurate or inappropriate for fruit or vegetable.	<u>Colors</u> used are minimally accurate, related <u>values</u> minimally accurate, highlighting, shading and/or texture is inaccurate or inappropriate for fruit or vegetable.	Project is <u>incomplete</u> , or not turned in for a grade.
Concept/Communication	<u>Fruit or vegetable and related topics are</u> exquisitely illustrated through all elements of the artwork; topic is crystal clear to the viewer.	<u>Fruit or vegetable and related problem/topic</u> is well illustrated through all elements of the artwork; topic is clear to the viewer.	<u>Fruit or vegetable and related problem/topic</u> is somewhat illustrated through all elements of the artwork; topic is somewhat clear to the viewer.	<u>Fruit or vegetable and related problem/topic</u> is minimally illustrated through all elements of the artwork; topic is not clear to the viewer	Project is <u>incomplete</u> , or not turned in for a grade.
Expression/Movement	<u>Action & Movement</u> of figure exquisitely demonstrates the function of the fruit or vegetable and related research information.	<u>Action & Movement</u> of figure clearly demonstrates the function of the <u>fruit or vegetable</u> and related research information.	<u>Action & Movement</u> of figure somewhat demonstrates the function of the <u>fruit or vegetable</u> and related research information.	<u>Action & Movement</u> of figure inadequately demonstrates the function of the <u>fruit or vegetable</u> and related research information.	Project is <u>incomplete</u> , or not turned in for a grade.
Media/Materials	All required media is included; perfect transformation of materials complete.	Most required media included; transformation of materials mostly achieved.	Some required media included; transformation of materials somewhat achieved.	Minimal required media included; transformation of materials minimally or not achieved.	Media not appropriate, transformation not achieved, project incomplete or not turned in for a grade.
